

Celestial Moment–Jere' Mondau		
	Medium–Aluminum	\$3,600
sculpture 10	<p>Mondau shows that a functional piece can also be artistic. Her very simple and graceful asymmetrical bench design invites viewing, touching, and of course, sitting. Mondau's bench is monochromatic because she used only one color (blue) to paint her bench. Would the bench make you feel different if she painted it yellow or orange? How different would the bench seem if Mondau used 8 or 11 colors? What color would you use for your bench?</p>
